

Bazaar AI

Terms of Use and Privacy Policy

1. Acceptance of Terms

By creating an account on Bazaar AI, you agree to be bound by these Terms of Use. Bazaar AI is a platform that connects merchants seeking invoice factoring with investors seeking verified invoice-backed investment opportunities. If you do not agree with any part of these terms, please do not use the platform.

2. Account Registration

You must register as either a Merchant or an Investor. Account type cannot be changed after registration without contacting our support team. You are responsible for providing accurate, current information during registration and for keeping your login credentials confidential. You must be a legal entity or individual authorized to conduct business in your jurisdiction.

3. Merchant Obligations

Merchants uploading invoices for factoring confirm that all submitted invoices are genuine, accurately represent a real commercial transaction, and are free of any prior claims, liens, or factoring arrangements with third parties. Submitting fraudulent or duplicate invoices may result in immediate account suspension and referral to relevant authorities.

4. Investor Obligations

Investors acknowledge that investments in invoice-backed deals carry risk, including the risk of buyer non-payment or delayed payment. Past performance and Trade DNA scores are indicative only and do not guarantee future results. Investors are responsible for conducting their own due diligence before committing funds.

5. KYC and Compliance

All users must complete Know Your Customer (KYC) verification before accessing factoring or investment features. Bazaar AI reserves the right to request additional documentation at any time and to suspend accounts that fail to meet compliance requirements.

6. Fees

Bazaar AI charges a service fee on factoring transactions and a platform fee on investment returns, as disclosed at the time of each transaction. Fee schedules may be updated from time to time; users will be notified of material changes.

7. Data and Privacy

We collect personal and business information necessary to operate the platform, including identity documents, financial data, and transaction history. This information is used for KYC verification, risk scoring (Trade DNA), fraud prevention, and to facilitate transactions between merchants and investors. We do not sell personal data to third parties. Data may be shared with regulators, banking partners, or service providers strictly as needed to operate the platform.

8. Data Retention and Security

We retain account and transaction data for as long as your account is active and as required by applicable financial regulations thereafter. We apply industry-standard technical and organizational measures to protect your data, including encryption in transit and at rest. No system is completely secure, and we encourage users to use strong, unique passwords.

9. Your Rights

Depending on your jurisdiction, you may have the right to access, correct, export, or request deletion of your personal data. Requests can be submitted through your account settings or by contacting our support team.

10. Limitation of Liability

Bazaar AI acts as a marketplace facilitator and is not a party to the underlying commercial transactions between merchants and their buyers. To the maximum extent permitted by law, Bazaar AI is not liable for losses arising from buyer non-payment, market conditions, or third-party actions.

11. Changes to These Terms

We may update these Terms of Use and Privacy Policy from time to time. Material changes will be communicated via email or an in-app notice. Continued use of the platform after changes take effect constitutes acceptance of the updated terms.

12. Contact

For questions about these terms or your data, contact our support team through the platform or via the contact details provided on our website.

This is a template document for product/demo purposes and does not constitute legal advice. Replace with counsel-reviewed terms before handling real funds.
